

PHYSICIAN ALLIANCE

INSURANCE Designed for PHYSICIANS & SURGEONS

Physician Alliance has over 30 years of experience offering affordable medical malpractice insurance to physicians and surgeons through reliable, stable insurance carriers. In the past, medical malpractice for physicians could be expensive and difficult to place. Due to more physicians practicing 'defensive medicine,' the cost of medical malpractice insurance for physicians and surgeons has decreased, although certain states and specialties still can pay high rates.

At Physician Alliance, we monitor the medical malpractice marketplace. We know which carriers are not accepting new submissions and what companies are on the watch list for financial difficulties. We know which medical specialties carriers prefer and those that can be more difficult to place.

How we help place your client's risk

After assessing your client's practice risk, our in-house underwriters evaluate the market based on their geographic region, medical specialty, claims experience and practice size for coverage options and rates that correspond to their needs. We then present you with our recommendations for you and your client to decide which insurance coverage and rate meets their needs.

Standard and alternative markets

Although Physician Alliance specializes in preferred and standard risks, we also have multiple alternatives for non-standard or more challenging specialties and/or claims experience. We have relationships with both admitted insurance companies and surplus lines insurance companies through which we can access the excess and surplus markets.
